

LA GEO TECA

stone selection

GARDENIA
ORCHIDEA

La Geoteca di Gardenia Orchidea è un viaggio tra i luoghi che custodiscono nella roccia il fascino di una bellezza primordiale. Materia eterna e viva, dalle mille sfumature e dalle molteplici caratterizzazioni, la pietra, reinventata in forma di seducenti lastre ceramiche, continua ad essere protagonista dell'architettura e del vivere contemporaneo. La Geoteca raccoglie 14 tipologie di pietra, di diversa provenienza, tra le più conosciute e apprezzate, per soddisfare ogni esigenza progettuale.

Gardenia Orchidea's Geoteca collection offers a journey through locations renowned for the appeal and primordial beauty of their rocks. La Geoteca consists of 14 of the best-known and most popular types of stone of various origins. An eternal, living material with myriad hues and surface effects, stone is reinvented in the form of seductive ceramic slabs and a series of 6-mm-thick modular sub-sizes capable of fulfilling any design need.

P.tech

La tecnologia P.TECH migliora la resistenza allo scivolamento, pur mantenendo una piacevole sensazione al tatto. P.TECH è il risultato di un innovativo processo produttivo che coniuga la selezione delle materie prime con le fasi di pressatura, cottura e lavorazione a fine linea. I prodotti P.TECH, R10 ed R11, pur raggiungendo i più elevati coefficienti di attrito, si puliscono facilmente, per questo possono essere utilizzati nei progetti wellness e outdoor, anche in aree pubbliche o commerciali.

The unique P.TECH technology improves slip resistance while maintaining a pleasant tactile sensation. P.TECH is the result of an innovative production process that combines a meticulous selection of raw materials with the pressing, firing and end-of-line processing stages. Despite their high coefficient of friction, R10 and R11 P.TECH products are easy to clean, making them ideal not only for use on indoor floors but also in wellness and outdoor spaces in public or commercial areas.

Superfici
Surfaces

Un sistema completo di superfici per le pavimentazioni esterne nel quale si incontrano funzionalità ed estetica, per fornire a progettisti e paesaggisti gli strumenti per disegnare spazi esterni confortevoli e contemporanei.

Gardenia Orchidea presents a complete system of surfaces for exterior pavings that combine style and functionality, to provide designers and landscape architects with the tools to design outdoor spaces that are comfortable and contemporary.

6mm: la ceramica va per il sottile

Le piastrelle in 6mm di spessore offrono un'installazione più pratica grazie alla loro leggerezza e maneggevolezza. Nonostante lo spessore ridotto tuttavia, mantengono lo stesso impatto estetico degli altri spessori, rappresentando per questo una risorsa per qualsiasi esigenza applicativa.

Our 6mm thick tiles are light and easy to handle and therefore quicker and more practical to install. Their reduced thickness maintains all the strength and versatility of porcelain stoneware surfaces while lowering their environmental impact.

Thinner is better

sottile e resistente
thin and durable

risparmio energetico
energy saving

basse emissioni
low co2 emissions

posa più veloce
quicker installation

facile da tagliare
easy to cut

ideale per le ristrutturazioni
ideal for renovations

Outdoor: maggiore spessore, maggiori prestazioni.

Fughe Mapei dalle prestazioni uniche, selezionate per abbinarsi alle superfici Marmoteca e garantire la massima resa estetica.

Mapei grouts with unique perfomances has been selected to match the Marmoteca surfaces and guarantee a superbly stylish result.

I colori esposti sono indicativi e possono variare per motivi di stampa. Per una corrispondenza più accurata dei colori, fare riferimento ai campioni "Fughe Colorate" Mapei. I colori possono essere influenzati dalla superficie accostata e dalla luminosità dell'ambiente.
Tutte le fugature Mapei per ceramica e materiali lapidei sono conformi alla norma EN 13888. I colori esposti sono indicativi e possono variare per motivi di stampa. Per maggiore precisione riferirsi ai campioni reali.

Due to the printing processes involved, the colours should be taken as merely indicative of the shades of the actual product.For an accurate colour representation, please refer to Mapei "Coloured Grouts" samples. Colours can be affected by the surface (where they are used) and the brightness of the environment.
All Mapei grouts for ceramic tiles and stone material are in compliance with EN 13888 standards. Due to the printing processes involved, the colours should be taken as merely indicative of the shades of the actual product. Please refer to the real colour samples.
