

LA MARMO TECA

GARDENIA
ORCHIDEA

Gardenia Orchidea, con la stessa passione per la ricerca di un collezionista, ha selezionato e raccolto all'interno de LA MARMOTECA ben 22 differenti soggetti ispirati ai marmi, riprodotti in grande formato per trasferire su pareti e pavimenti le trame meravigliose che la natura ha creato nei millenni, con il contributo delle più avanzate tecnologie ceramiche. Un progetto ambizioso ed unico nel suo genere, che grazie alle diverse dimensioni, spessori e finiture di superficie disponibili, è in grado di proporre l'eleganza contemporanea del marmo in tutti i contesti progettuali indoor, sia residenziali che commerciali.

With the passion for research of a collector, Gardenia Orchidea has selected 20 different marble-inspired subjects for LA MARMOTECA, reproduced on large tiles to give walls and floors the incredible textures nature has created over thousands of years, enhanced by cutting-edge ceramic technologies. Thanks to the different sizes, thicknesses and surface finishes available, this unique, ambitious project is able to bring the contemporary elegance of marble into all indoor settings, both residential and commercial.

GAMMA

INNOVAZIONE SENZA CONFINI

INNOVATION WITHOUT BOUNDARIES

La tecnologia SOFT3D consente di realizzare lastre dalla finitura extra morbida arricchite da effetti di bassorilievo che ne esaltano la naturalezza. La differente densità delle materie utilizzate in superficie, nelle zone selezionate, ricrea chimicamente le profondità, che si sovrappongono in maniera esatta alla grafica digitale ad alta risoluzione.

The SOFT3D technology allows to create slabs with an extra smooth finish, enriched with bas-relief effects that enhance the naturalness of the surface. The different density of the raw materials applied in the selected areas, chemically recreates the depths that exactly match the high-resolution digital graphic.

SOFT 3D

P. tech

La tecnologia P.TECH migliora la resistenza allo scivolamento, pur mantenendo una piacevole sensazione al tatto. P.TECH è il risultato di un innovativo processo produttivo che coniuga la selezione delle materie prime con le fasi di pressatura, cottura e lavorazione a fine linea. I prodotti P.TECH, R10 ed R11, pur raggiungendo i più elevati coefficienti di attrito, si puliscono facilmente, per questo possono essere utilizzati nei progetti wellness e outdoor, anche in aree pubbliche o commerciali.

The unique P.TECH technology improves slip resistance while maintaining a pleasant tactile sensation. P.TECH is the result of an innovative production process that combines a meticulous selection of raw materials with the pressing, firing and end-of-line processing stages. Despite their high coefficient of friction, R10 and R11 P.TECH products are easy to clean, making them ideal not only for use on indoor floors but also in wellness and outdoor spaces in public or commercial areas.

3D tech

La tecnologia 3D Tech consente di applicare differenti materie ceramiche, anche a spessore, in perfetta corrispondenza con la grafica sottostante, realizzata in digitale ad altissima definizione. Un processo produttivo rivoluzionario, che combina la matericità con l'estetica del prodotto, fino ad ottenere superfici dallo straordinario valore sensoriale.

The new 3D Tech technology allows thick layers of various ceramic materials to be applied in perfect alignment with the underlying graphic designs, which are created digitally with extremely high definition. This revolutionary production process combines material and aesthetic effects to create surfaces with extraordinary sensorial appeal.

6MM LA CERAMICA VA PER IL SOTTILE

THINNER IS BETTER

SOTTILE E RESISTENTE
Thin and durable

RISPARMIO ENERGETICO
Energy saving

BASSE EMISSIONI
Low CO2 emissions

Le piastrelle in 6mm di spessore offrono un'installazione più pratica grazie alla loro leggerezza e maneggevolezza.

Nonostante lo spessore ridotto tuttavia, mantengono lo stesso impatto estetico degli altri spessori, rappresentando per questo una risorsa per qualsiasi esigenza applicativa.

Our 6mm thick tiles are light and easy to handle and therefore quicker and more practical to install. Their reduced thickness maintains all the strength and versatility of porcelain stoneware surfaces while lowering their environmental impact.

POSA PIÙ VELOCE
Quicker installation
